Responsibilities:

Crop planting, harvesting support, animal care assistance, farm cleaning, equipment handling

Description:

Agricultural Worker jobs in Ireland offer a good opportunity for lower-level and semi-experienced candidates who want stable work in the farming sector. Ireland has a strong agricultural industry, including dairy farms, crop farms, and mixed farming operations. Due to seasonal demand and labor shortages, many farms require additional workers to support daily operations.

As an Agricultural Worker, your duties will depend on the type of farm. Common tasks include planting and harvesting crops, feeding and caring for animals, cleaning farm areas, and assisting with basic farm maintenance. Some roles may also involve operating simple farm tools or helping with packing and storage. The work is practical and may require working outdoors in different weather conditions.
