Employment Type

Full-time
(adsbygoogle = window.adsbygoogle || []).push({});

Experience

Minimum 2-3 years of proven masonry experience.

Skills

- **Proficiency in reading technical drawings and blueprints**
- Experience with CNC turning and/or milling machines (e.g., Siemens, Fanuc controls)
- **Attention to detail** and commitment to quality control (using measuring tools like calipers, micrometers)
- Basic machine maintenance and troubleshooting abilities
- Strong adherence to safety protocols
- Team-oriented mindset and good communication.

Responsibilities

- **Set up and operate CNC machines** to perform tasks such as drilling, grinding, milling, and turning.
- **Monitor machine operations** to ensure optimal performance and adjust settings as required.
- Inspect and measure finished products to ensure compliance with precise specifications and quality standards.
- Perform routine maintenance, cleaning, and necessary minor repairs on machines.
- Document production activities, quality checks, and maintenance logs accurately.

Description

As a **CNC Machine Operator (CNC-Maschinenbediener)** at **Innovatech Präzision GmbH** in Langenfeld, Germany, you will be a vital part of our manufacturing process, creating high-precision components for various industries. This role requires meticulous attention to detail, a solid understanding of machining principles, and a commitment to maintaining a safe and efficient workplace.

Your primary duty will involve operating Computer Numerical Control (CNC) machines. This includes setting up the equipment, loading materials, running the production cycle, and consistently monitoring the process to identify any issues. **Precision is paramount**; you will be responsible for interpreting complex technical drawings to ensure every piece meets the exact geometric and dimensional tolerances required. Post-production, you will conduct rigorous quality checks using standard measuring instruments.

We value practical experience and vocational training, which are highly regarded in German industry. While we prefer candidates with some experience (1-3 years), we also welcome motivated individuals with formal vocational qualifications who are eager to develop their skills further. The German work culture emphasizes reliability, teamwork, and continuous learning, and we expect our operators to embody these values. You will be expected to adhere strictly to all operational and safety procedures to maintain a secure and productive environment. This role offers a competitive salary package equivalent to **\$2,700 – \$3,500 USD monthly gross**, reflecting the importance of skilled craftsmanship in our company. Join us and contribute your skills to Germany's renowned engineering tradition.
