Skills: Strong fault diagnosis and troubleshooting ability, Proficiency in installing and maintaining electrical systems, Knowledge of Australian Wiring Rules (AS/NZS 3000), Excellent adherence to Work Health and Safety (WHS) protocols, Effective communication and teamwork skills.

Responsibilities: Install, maintain, and repair electrical wiring and systems in commercial and domestic settings, Read and interpret blueprints, wiring diagrams,

and specifications, Connect electrical systems to power supply and test circuit continuity, Complete necessary documentation and ensure compliance with all Australian standards.

Description:

Sydney Power Solutions is a rapidly growing electrical contractor based in Sydney, seeking qualified and ambitious Electricians to join our team. We are looking for lower-level or experienced candidates who are ready to commit to a career in the Australian electrical industry. This role offers the chance to work on a diverse range of projects, applying your trade skills in a demanding and high-standard work environment.

Electricians are highly sought after in Australia, and this role requires a candidate who is already qualified in their home country. To work legally as an Electrician in Australia, you will need to obtain an Australian electrical licence, which typically starts with a skills assessment (e.g., through Trades Recognition Australia – TRA) to establish the equivalence of your international qualifications.
