Valid through

29.05.2026

full spectrum of warehouse operations. You will be responsible for **receiving and inspecting incoming shipments** against purchase orders, identifying and documenting any discrepancies or damages. This requires a high degree of **attention to detail and organizational skills**.

A significant part of the job involves the **safe movement and storage of goods** using equipment like pallet jacks and hand trucks. You must have the **physical stamina and strength** to handle packages weighing up to 50 lbs on a regular basis. You will also be tasked with **picking, packing, and preparing outgoing shipments** for domestic and international delivery, ensuring all products are correctly labeled and secured. Maintaining accurate inventory is crucial; you will use basic **computer skills to update records** in our Warehouse Management System (WMS) and participate in **regular cycle counting and inventory audits**. We are dedicated to maintaining a safe work environment, meaning a strict adherence to all company and government safety regulations is mandatory. Success in this role depends on your **reliability, punctuality, and ability to work efficiently as part of a dynamic team**.
