About the Job

At Bapco, we are looking for dynamic and motivated chemical engineering graduates to join our team. The position involves working on various projects in refining, processing, and energy management. As a graduate trainee, you will gain hands-on experience, participate in training programs, and work alongside experienced professionals to develop your skills.

[yarpp template="list" limit=3]

Key Responsibilities

- Assist in monitoring and optimizing refinery processes.
- Perform data analysis to improve operational efficiency.
- Support research and development for new chemical processes.
- Ensure compliance with environmental and safety standards.

- Collaborate with cross-functional teams on project implementation.
- Conduct troubleshooting and recommend solutions for process challenges.
