Description

Job Title: Project Engineer Jobs in Singapore with Free Visa Sponsorship 2024

Location: Various Locations, Singapore

Job Type: Full-Time, Permanent

Visa Sponsorship: Available (Free)

Job Overview: We are seeking experienced and driven Project Engineers to join our team in Singapore. This position offers free visa sponsorship for qualified international candidates. As a Project Engineer, you will be responsible for managing engineering projects from inception to completion, ensuring they meet technical specifications, budget, and timelines.

```
(adsbygoogle = window.adsbygoogle || []).push({});
```

Key Responsibilities:

- **Project Management:**
 - Oversee all phases of engineering projects, including planning, execution, and completion.
 - Develop detailed project plans, including scope, schedule, and resource allocation.
 - Monitor project progress and performance, making adjustments as necessary to ensure successful completion.
- **Technical Oversight:**
 - Ensure engineering solutions and designs comply with industry standards and regulations.
 - Coordinate with engineers, architects, and other stakeholders to integrate and implement project requirements.
 - Conduct technical reviews and provide solutions to engineering problems.
- **Budget and Cost Management:**
 - Prepare and manage project budgets, ensuring cost-effectiveness and adherence to financial constraints.
 - Track expenses and handle procurement processes, including contract negotiations and vendor management.
- **Quality Assurance:**
 - Implement quality control processes to ensure the highest standards are maintained throughout the project lifecycle.
 - Conduct inspections and testing to verify compliance with project specifications and regulations.
- **Documentation and Reporting:**
 - Maintain accurate project documentation, including progress reports, technical specifications, and compliance records.

- Prepare and present project reports to stakeholders and senior management.
- **Team Collaboration:**
 - Lead and coordinate with project teams, including engineers, contractors, and subcontractors.
 - Facilitate communication and collaboration between team members and external partners.

Qualifications and Requirements:

- Bachelor's degree in Engineering (Civil, Mechanical, Electrical, or a related field).
- Proven experience as a Project Engineer or in a similar engineering role.
- Strong understanding of engineering principles, project management practices, and industry standards.
- Proficiency in project management software and engineering tools.
- Excellent problem-solving, organizational, and leadership skills.
- Fluency in English (additional language skills are an advantage).
- Ability to work under pressure and handle multiple projects simultaneously.
- Willingness to relocate to Singapore and work in a multicultural environment.
