Description

Airbus Careers Remote Jobs in Netherland With Work Visa

Job Title: Remote Software Engineer – Airbus Netherlands

Location: Netherlands (Remote)

Employment Type: Full-time

Company Overview: Airbus is a global leader in aerospace, defense, and related services. With a presence in over 170 locations worldwide, we design, manufacture, and deliver industry-leading aircraft, helicopters, satellites, and defense systems. At Airbus, innovation is at the heart of everything we do, driving us to continuously push the boundaries of technology and engineering excellence.

Job Description: Airbus is seeking a talented and motivated Software Engineer to join our dynamic team in the Netherlands. In this role, you will have the opportunity to work remotely from the Netherlands, collaborating with a diverse team of professionals to develop cutting-edge software solutions for our aerospace and defense projects.

Key Responsibilities:

- Design, develop, and maintain software applications for aerospace and defense systems.
- Collaborate with cross-functional teams to gather requirements, define project scope, and deliver high-quality software solutions.
- Implement best practices for software development, including coding standards, code reviews, and testing methodologies.
- Conduct performance optimization and troubleshooting to ensure the reliability and efficiency of software applications.
- Stay updated on emerging technologies and industry trends to drive innovation and continuous improvement within the team.

Requirements:

- Bachelor's or Master's degree in Computer Science, Engineering, or related field.
- Proven experience in software development, with proficiency in programming languages such as C++, Java, or Python.
- Strong understanding of software engineering principles, including object-oriented design, data structures, and algorithms.
- Experience with version control systems (e.g., Git), continuous integration/continuous deployment (CI/CD) pipelines, and agile development methodologies.
- Excellent communication skills and the ability to work effectively in a collaborative team environment.
- Fluency in English (both written and spoken).

Preferred Qualifications:

- Experience with aerospace or defense industry projects is a plus.
- Familiarity with real-time operating systems (RTOS) and safety-critical software development standards (e.g., DO-178C) would be advantageous.
- Knowledge of software architecture patterns and design principles.

Benefits:

- Competitive salary and benefits package.
- Flexible remote work arrangement with the opportunity to work from the Netherlands.
- Professional development opportunities and support for continued learning.
- Exposure to exciting and challenging projects within the aerospace and defense industry.
- Collaborative and inclusive work culture with opportunities for career growth and advancement.

If you are passionate about software engineering and eager to make an impact in the aerospace industry, we encourage you to apply for this exciting opportunity to join the Airbus team in the Netherlands. We welcome applicants from diverse backgrounds and experiences to bring their unique perspectives to our team. Join us in shaping the future of aerospace innovation!
