Key Responsibilities

As a Computer Operator, your day-to-day tasks will include:

- Monitoring and managing computer systems for efficiency.
- Performing regular data backups and ensuring system security.
- Troubleshooting technical issues and resolving system errors.
- Managing software updates and hardware maintenance.
- Assisting team members with IT-related queries.
- Ensuring system performance meets company standards.
- Reporting any malfunctions or concerns to the IT department.

Requirements

To qualify for this role, candidates must meet the following requirements:

1. **Educational Qualification**:

- High school diploma or equivalent.
- A degree in IT or a related field is preferred but not mandatory.
2. **Skills**:
    - Basic knowledge of computer systems and software.
    - Fast and accurate typing skills.
    - Strong troubleshooting abilities.
    - Proficiency in Microsoft Office Suite and basic networking.
3. **Experience**:
    - Open to freshers and experienced candidates.
    - Prior experience in data entry, IT support, or similar roles is a plus.
4. **Other Requirements**:
    - Fluent in English.
    - Excellent attention to detail.
    - Ability to work independently and as part of a team.
    - Good communication and problem-solving skills.
